

# Soft Skills Assignment

## Module 1) Personal Information

- *Briefly introduce yourself: name, educational background, and current status (student or professional).*

My name is Kavita Jogi.

I have completed my Master's in Computer Application in the year 2019 with a CGPA of 8/10 from Gujarat Technological University.

Currently, I am learning a programming language named Python at Tops Technology Rajkot.

- *Mention key personality traits, such as your creativity, analytical skills, or passion for problem-solving.*

I like to work in an environment where I can get overall development of myself in areas such,

Where I enhance my analytics skills to detect patterns, analyze the information, etc.

Also, I like to enhance my characteristics such as good teammate, communicator, listener, etc.

- *Explain your interest in technology and why you chose this career path.*

I completed my degree in computer applications so I always wanted to start my career in programming language module.

So, I chose Python out of multiple programming languages because of its easy and clean syntax.

This makes it easy for developers to learn Python.
